

## إدارة المرافق المتقدمة: التطور في العناية بالمرافق

**Duration:** 5 Days

**Language:** ar

**Course Code:** IND21-103

### Objective

Upon completion of this course, participants will be able to:

- Understand the importance of facilities management within an organisation.
  - Explore the roles and responsibilities of a facilities manager.
  - Explain the concepts, principles, and typical functions involved in facilities management.
  - Evaluate what skills and competencies are necessary to work within facility management.
- Effectively maintain various management systems to ensure maximum productivity within the organisation.
  - Assess the role of risk management within facilities management.
  - Examine different risk management methods and techniques.
  - Incorporate key statistical methodology within maintenance planning.
- Ensure all facilities are compliant with health and safety standards and laws.

### Audience

This course is designed for anyone within an organisation responsible for facilities management. It would be most beneficial for:

- Facilities and Maintenance Managers

- Risk Managers
- Contractors and Sub-contractors
  - Operations Managers
    - Risk Analysts
    - Risk Auditors
    - HSE Officers
  - Compliance Officers

## Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will review real-world risk management plans of established organisations to highlight major and minor risks and debate the effectiveness of preventative measures.

The participants will use a variety of learning methods to guarantee a full understanding of the taught content. These methods will include presentations, video materials, group discussions, and practical activities. This combination of methods will ensure they can develop their knowledge and related skills, and working alongside their peers, they will have the opportunity to offer and receive constructive feedback.

## Summary

It is crucial to prioritise facilities management within any industry organisation. Facilities management is an important factor in ensuring maximum safety for all employees and clients, as well as supporting the organisation by reducing overall maintenance costs and protecting it from liability.

Facilities management ensures that an organisation's physical features and processes function as efficiently as possible. Regular maintenance and repairs on different features and structures ensure any potential problems are identified as soon as possible before they can cause long-term issues. Negating and managing these risk factors closely through risk management is vital in ensuring the business can continue functioning as desired and work towards its goals and objectives without disruptions.

To work in facilities management, one must possess and develop many skills and competencies. Attention to detail and ensuring compliance with all health and safety standards are key.

# Course Content & Outline

## Section 1: Fundamentals of Facilities Management

- Defining facilities management within an organisation.
- Explaining the necessity and importance of facilities management.
- Understanding the consequences of poor facilities management.
- Exploring core competencies, skills, and responsibilities of an FM professional.
- Identifying key elements of FM – managing resources, contractors, expectations, and the work environment.

## Section 2: Maintenance and Control

- Recognising facilities that require regular maintenance and creating a proactive plan.
- Prioritising tasks based on repair severity and risk to life and organisational function.
- Ensuring safety equipment (alarms, fire blankets, extinguishers, fire exits) is in working order.
  - Controlling maintenance and repair costs.

## Section 3: Facilities Management Strategies

- Managing people and enhancing productivity.
- Monitoring FM performance to ensure efficiency and safety.
- Developing strategies to address maintenance challenges and problems.
- Balancing facility 'up-time' and 'down-time' to optimise organisational performance.

## Section 4: Risk Management

- Understanding the importance of effective risk management in FM.
- Identifying factors that influence facility safety and potential risks.
  - Conducting risk assessments and hazard identification audits.
- Creating risk management plans, prioritising risks and outlining preventive measures and safety procedures.

## Section 5: Health, Safety, and Compliance

- Evaluating local and regional health and safety laws and standards.
- Ensuring organisational compliance with health and safety regulations.
  - Integrating safety laws into risk management plans.
- Pursuing external accreditation for safety, quality, and environmental management.

## Section 6: Sustainability and Environmental Stewardship

- Applying green building standards and certifications in FM.
- Implementing energy management and conservation practices.
- Promoting sustainable practices within facilities management operations.

## Section 7: Technology in Facilities Management

- Utilising Building Management Systems (BMS) for operational efficiency.
- Implementing Computer-Aided Facilities Management (CAFM) software.
- Exploring innovations and trends in FM technology to improve performance.

## Section 8: Leadership and Team Management

- Applying leadership styles and techniques specific to FM.
  - Building and leading effective FM teams.
- Resolving conflicts and enhancing problem-solving capabilities within the FM team.

## Certificate Description

عند إتمام هذه الدورة التدريبية بنجاح، سيحصل المشاركون على شهادة إتمام التدريب من Holistique Training. وبالنسبة للذين يحضرون ويكملون الدورة التدريبية عبر الإنترنت، سيتم تزويدهم بشهادة إلكترونية (e-Certificate) من Holistique Training.

وخدمة اعتماد التطوير المهني (BAC) معتمدة من المجلس البريطاني للتقييم Holistique Training شهادات ISO 29993 أو ISO 21001 كما أنها معتمدة وفق معايير، (CPD) المستمر.

لهذه الدورة من خلال شهادتنا، وستظهر هذه النقاط على شهادة إتمام (CPD) يتم منح نقاط التطوير المهني المستمر واحدة عن كل ساعة CPD يتم منح نقطة، وفقاً لمعايير خدمة اعتماد Holistique Training. التدريب من لأي دورة واحدة نقدمها حالياً CPD حضور في الدورة. ويمكن المطالبة بحد أقصى قدره 50 نقطة.
