

# CPO – Chief Product Officer

**Duration:** 5 Days

**Language:** en

**Course Code:** MG2 - 213

## Objective

:By the end of this course, participants will be able to

- .Define the strategic role of the CPO and their impact on organisational growth •
- .Design customer-centric product strategies aligned with business goals •
- .Lead agile product teams through innovation, development, and launch cycles •
- .Apply data analytics, user research, and market insights to shape product direction •
- .Collaborate with C-level peers to balance product vision and business performance •
- .Manage portfolios, roadmaps, and performance metrics effectively •

## Audience

:This course is ideal for

- .(Current or aspiring Chief Product Officers (CPOs •
- .Heads of Product, Innovation, or Digital •
- .Product Managers transitioning to executive leadership •
- .Entrepreneurs and founders responsible for product vision •
- .CEOs and COOs seeking to understand product leadership •
- .UX/UI, Data, and Tech leads with strategic responsibilities •

## Training Methodology

The course uses a blended format of real-world case studies, expert-led lectures, strategic frameworks, and peer collaboration. Participants will engage in simulations and strategic mapping exercises, culminating in a product innovation capstone project

## Summary

In today's dynamic, tech-driven markets, the Chief Product Officer (CPO) plays a pivotal role in driving innovation, customer-centricity, and competitive advantage. This course equips aspiring and current CPOs with the advanced skills required to lead cross-functional product teams, define and execute winning product strategies, and align innovation with business objectives

Participants will explore product lifecycle management, go-to-market strategy, user experience leadership, data-driven decision-making, and organizational influence—preparing them to lead product functions at the highest executive level
