

# Standard Operating Procedure (SOP) Development & Management

**Duration:** 5 Days

**Language:** en

**Course Code:** MG2 - 225

## Objective

:By the end of this training course, participants will be able to

- .Understand the strategic role of SOPs in organisational success
- .Develop clear, concise, and compliant SOPs tailored to specific processes
- .Apply industry best practices for SOP review, approval, and version control
- .Integrate SOPs into digital platforms and training systems
- .Ensure ongoing compliance through effective auditing and updates

## Audience

:This course is ideal for

- .Operations managers and process owners
- .Compliance and quality assurance professionals
- .HR and training managers
- .Team leaders responsible for process documentation

## Training Methodology

The course combines expert-led presentations, real-world case studies, and interactive exercises. Participants will develop practical SOP frameworks and apply them to real scenarios, ensuring immediate workplace application

## Summary

This advanced training course is designed for professionals responsible for creating, implementing, and maintaining Standard Operating Procedures (SOPs) within their organisations. It provides an in-depth understanding of SOP structures, compliance requirements, best practices, and integration with digital tools. Participants will learn how to design SOPs that are clear, efficient, compliant, and adaptable to organisational changes

By the end of the course, attendees will be able to standardise processes effectively, ensure quality control, and support operational excellence across departments
