**Course Code:** IND12-101

## Objective

Upon completion of this course, participants will be able to:

- Understand the latest digital bank trends and technology innovations
- Reinvent the journey customers take to ensure needs are met while delivering value
- Understand how the COVID-19 pandemic changed the way we engage with customers
- Explore whether there is a threat to banks from FinTechs and what financial institutions should do about it
  - Understand FinTech's and how they impact customer experiences
    - Show how collaboration with FinTech can assist banks
  - Understand the challenges business and alternative lending
    - Develop a Technology Innovation Strategy
    - Increase value and reduce waste from investment
  - Develop optimisation, risk and streamlining strategies for digital innovation
- Familiarise with global digital banking trends and how they impact customers' behaviour.
  - Confidently drive digital transformation and change
- Familiarise with The Digital Transformation Journey - resources and capabilities.
  - Confidently using digital trends to provide excellence
    - Identify the role of Disruptive Technology
    - Confidently drive digital

## Audience

This course is designed for anyone with the responsibility of evolving traditional banking services onto a digital platform. It would be most beneficial for

- Retail Banking Leaders
- Departmental heads
- Digital & Electronic Channel Managers
- Retail & Electronic Banking leaders
- Digital, Mobile Heads & Leaders
- Strategy, Risk, HR Executives & Managers
- Digital/Mobile Executives and Directors

## Training Methodology

Teaching takes place in various settings including face-to-face in a classroom environment. It will ensure that participants can expand their knowledge of the subject and increase their skill set. The course is delivered via various methods by a specialist tutor. This will include PowerPoint presentations, reviewing articles and other relevant materials, group or individual exercises and discussions. There may be some independent work set, and the course will require submitting articles to demonstrate understanding and an end-of-course test. Note-taking is encouraged, and you are welcome to use electronic devices.

The course manual will form part of the learning but will give you references for the future. You are encouraged to ask questions and, if needed, spend time one-on-one with your tutor to review any issues. You can network with peers in similar roles during your time in the classroom.

## Summary

Like most sectors, banking has undergone a rapid transformation with the introduction of digital innovation. Banking has a vast depth online that is much more than just payments, e-wallets, and cards. Staff working in banking must have their finger on the pulse of new and

imminent technologies.

Innovation has revolutionised the customer journey, but this has not always been easy to accept. Delegates of this course need to understand how customers from different generations cope with these changes and learn how to support technophobic people. Of course, the very foundation of banks has changed, and like many other industries, we are seeing the demise of the brick-and-mortar high street banking building.

The pandemic has had a massive impact on many areas of life, and a new normal now applies to banking. Agile work needs to be employed to ensure that institutions can compete in an increasingly competitive world. Digital transformation impacts every business area, and we must change to survive. The skills taught in this course will help you lead your team in the transformation, ensure that these new trends are embraced, and become part of the culture.

## Course Content & Outline

### Section 1: The Digital Innovation and Transformation in Banking

- What innovations in technology impact banking
  - Digital banking innovation around the world
- How banking behaviours and activities are impacted
  - Digital transformation is constantly evolving
