

# Advancing Open Innovation Strategies

**Duration:** 5 Days

**Language:** en

**Course Code:** MG2-148

## Objective

:Upon completion of this course, participants will be able to

- Apply open innovation principles to drive organisational growth.
- Advocate the benefits of open innovation and engage stakeholders effectively.
  - Navigate challenges inherent in open innovation initiatives.
  - Foster a corporate culture that embraces open innovation practices.
  - Stimulate innovation through strategic implementation of open innovation methodologies.

## Audience

:This comprehensive course caters to a diverse audience, including

- Team leaders and supervisors seeking to enhance innovation practices within their teams.
- Managers tasked with driving organisational growth through open innovation strategies.
- Members of senior leadership teams interested in fostering a culture of innovation and collaboration.
- Professionals committed to advancing their understanding and implementation of open

innovation principles.

## Training Methodology

This course utilises an engaging and practical approach to adult learning, integrating interactive lectures, hands-on activities, and collaborative group work. Participants will delve into real-world case studies and participate in scenario-based exercises to apply open innovation principles. Workshops and role-playing sessions will allow attendees to practice building strategic alliances and managing change. Group discussions and brainstorming sessions will foster a collaborative environment where participants can share insights and strategies. The course also includes self-assessment tools and reflective practices to help participants evaluate and refine their innovation approaches. This multifaceted methodology ensures participants gain the skills and confidence to implement open innovation practices effectively within their organisations.

## Summary

Open innovation has emerged as a compelling trend embraced by leading corporations worldwide. This course introduces a business management model for innovation that champions collaboration with external organisations. Participants will explore how open innovation challenges conventional corporate mindsets and fosters a culture of collaboration and creativity. This course will give attendees insights into administering open innovation principles and cultivating a corporate ethos conducive to innovation.

## Course Content & Outline

### Section 1: Understanding Creativity and Innovation

- Exploring the cognitive processes underlying creativity and innovation.
