

Strategic Programme Management Excellence

Duration: 5 Days

Language: en

Course Code: MG2-153

Objective

:Upon completion of this course, participants will be able to

- Gain proficiency in information management best practices.
- Lead with robust strategic decisions using modern analytical tools and techniques.
 - Navigate complexity, specification, and scheduling constraints efficiently.
 - Develop strategies for risk assessment and management.
 - Formulate effective programme strategies.
 - Cultivate balanced public-private relationships in development activities.
- Establish targets and performance standards amidst change and foster team commitment to programme delivery.

Audience

:This course caters to a diverse range of professionals, including

- Experienced and aspiring managers seeking to enhance their strategic skills.
 - Leaders aiming to improve team performance.
- Board members involved in strategic decision-making.

- Strategy planners and consultants.
- Portfolio, programme, and project practitioners, including members of PMOs, PgMOs, and PfMOs.

Training Methodology

The five-day course on Strategic Programme Management Excellence employs an interactive and practical training methodology to ensure participants gain in-depth knowledge and applicable skills. The approach combines expert-led lectures, dynamic group discussions, and hands-on workshops to facilitate a comprehensive understanding of strategic programme management principles. Participants will use real-world case studies and simulation exercises to practice strategic analysis, decision-making, and risk management techniques. Role-playing activities and collaborative projects will enhance their ability to manage stakeholder relationships and navigate complex programme scenarios. Continuous feedback, reflection sessions, and peer-to-peer learning opportunities will reinforce knowledge acquisition and promote applying best practices in real-world settings, ensuring participants are well-prepared to lead and excel in their programme management roles.

Summary

In today's intricate business landscape, with constant market shifts and technological advancements, managers face challenges in recognising and evaluating opportunities. This course is meticulously crafted to equip managers with the tools and practices necessary for strategic analysis, evaluation, and opportunity seizing in a fiercely competitive market. Designed for managers aspiring to excel in programme management, this course addresses setting strategic objectives, planning programmes, and maximising benefits throughout the programme lifecycle.

Course Content & Outline

Section 1: Programme Management Fundamentals

- Understanding the distinctions between projects, programmes, and portfolios.
- Exploring the four phases of programme management and their essential principles.
 - Defining programme essentials and the disciplines of programme management.
 - Roles and responsibilities of the programme manager.
